COVID-19 Scenario:

The COVID-19 pandemic had a negative impact on the global horse insurance industry. Most of the diagnostic and veterinary clinics were closed due to lockdowns implemented by various governments.

Furthermore, horse insurance companies were increasingly trying to innovate and modify the policy coverage and policies depending on the incidence of health conditions.

Also, the majority of horse insurance providers shifted to digital platforms to provide better services to their customers and tackle the negative impact on the industry.

However, an increase in government initiatives and a rise in digitalization in the insurance industry have led to an increase in services for the global horse insurance market.

The report comprehensively analyzes the global horse insurance market, covering its various segments such as type, horse type, application, sales channel, and region. The report provides an analysis of each segment and sub-segment with the help of tables and figures. This analysis helps market players, investors, and new entrants determine the sub-segments to be tapped on

to achieve growth in the coming years.
