

Omnigence Asset Management Surpasses CA\$1 Billion in Assets Under Management

CALGARY, ALBERTA, CANADA, July 7, 2025 /EINPresswire.com/ -- Omnigence Asset Management, a Canadian multi-strategy alternative investment firm, announced today that it has surpassed CA\$1 billion in assets under management (AUM) across its growing platform of private-market strategies.

This milestone reflects accelerating demand from advisors, family offices, and institutional consultants for alternatives offering structural advantages in income, inflation protection, and downside resilience.

“Crossing the billion-dollar mark is an important validation of our philosophy: focus on under-financialized sectors where capital scarcity exists,” said Stephen Johnston, Managing Director at Omnigence. “We are not in the business of chasing large, consensus theses. We’re building true alternatives for clients who want true alpha — not leverage-dependent beta.”

Growth Fueled by Differentiated Strategies

Omnigence has built a platform centered on two cornerstone funds, each providing uncorrelated, high-conviction access to overlooked segments of the market:

- Veripath Partners – Canadian farmland strategy with over 140,000 acres under management
- Arvore Partners – Lower mid-market private equity with a recurring distribution model

Together, these strategies offer exposure to real assets that are underrepresented in traditional portfolios yet central to long-term wealth preservation.

A Platform Built for Today's Environment

Omnigence attributes its growth to a consistent focus on:

- First-principles investing — emphasizing transparency, cash flow, and investor alignment

- Avoiding institutional crowding — targeting sectors too operationally intensive for large allocators
- Advisor accessibility — with multiple funds now available through Fundserv

Looking Ahead

With strong momentum and a disciplined capital base, Omnigence is actively exploring new strategies and partnerships that align with its mission to deliver meaningful diversification and long-term value.

About Omnigence Asset Management

Omnigence Asset Management is a Canadian alternative investment platform delivering focused strategies in farmland, private equity, secondaries, and healthcare. With offices in Toronto and Calgary, the firm is dedicated to providing investors with resilient, transparent, and operationally grounded alternatives in a world of increasingly crowded trades.
