

# Smart Savings for Smart Labs: Bettersize Instruments Announces Demo Unit Sale at Unbeatable Value

*Upgrade your lab with certified Bettersize demo units—high-performance particle analyzers now available at unprecedented value.*

COSTA MESA, CA, UNITED STATES, July 1, 2025 /EINPresswire.com/ --

Bettersize Instruments, a key player in particle size and powder characterization technology, announces a limited-time opportunity for labs to upgrade their analytical capabilities. For the first time, the company is releasing a select range of certified demo instruments at unbeatable prices, starting from just \$20K.

These high-performance systems—previously used in controlled in-house labs for demonstrations and training—include analyzers for:

- Particle size and shape
- Zeta potential and stability
- Powder density and flowability

Each unit is meticulously maintained, calibrated, and certified to meet original factory standards, delivering performance comparable to new systems.

- Why Choose a Certified Demo Unit?
- Premium Performance – Fully certified with traceable accuracy
- Complete Package – Includes accessories, professional installation, and training
- Full Support – Backed by a 1-year warranty and expert technical support
- Cost Savings – High-end instrumentation at a fraction of new-system costs
- Fast Deployment – Ready to ship, minimizing downtime

□□□□At Bettersize Instruments, our goal is to make advanced particle analysis solutions more accessible to labs of all sizes,□ said Ricky Ponting, Business Development Manager at Bettersize Instruments. □These demo units combine cutting-edge technology with exceptional value, empowering scientists to focus on what matters most.□

Other Bettersize models are also available with discounts of up to 50% off. Act fast! This North America-exclusive offer ends September 30, 2025. The demo units are available on a first-come, first-served basis.
