The Value of CloudIBN's VA&PT Partnership

1. Customized Engagements for Your Unique Needs

No two businesses are alike, and CloudIBN embraces this with tailored VA&PT services that align with your industry, size, technology stack, and risk appetite. Our partnership begins with a deep

understanding of your environment, ensuring testing is relevant and impactful.

2. End-to-End Security Assurance

From initial vulnerability assessments to comprehensive penetration testing, CloudIBN covers your entire digital footprint—networks, applications, cloud infrastructure, and human factors—to identify and mitigate risks before attackers exploit them.

3. Access to World-Class Expertise

Our team comprises certified ethical hackers, security analysts, and compliance experts who bring years of experience across industries and geographies. Partnering with CloudIBN means tapping into this global knowledge base while benefiting from localized support tailored for US regulations and threats.

How CloudIBN's VA&PT Partnership Works

1. Discovery and Scoping: We collaborate closely to map your assets, understand your risk landscape, and define testing objectives.
2. Comprehensive Assessment: Using cutting-edge tools and manual techniques, we identify vulnerabilities across all attack surfaces.
3. Simulated Attacks: Penetration testing replicates real-world adversaries, revealing how vulnerabilities could be exploited in practice.
4. Detailed Reporting and Guidance: Receive prioritized findings with actionable remediation strategies aligned to your business goals.
5. Ongoing Support: Benefit from continuous engagement options to maintain and enhance your security posture over time.
