Inogic launches new app for Real-Time Dynamics 365 CRM Translations via Azure AI Translator

NY, UNITED STATES, July 1, 2025 /EINPresswire.com/ -- Inogic, a leading Microsoft Gold ISV known for its innovative solutions for Dynamics 365 and Power Apps, proudly announces the launch of Translate4Dynamics, a powerful app designed to deliver seamless, real-time translation of Dynamics 365 CRM records into multiple languages.

As global businesses continue to expand, overcoming language barriers in customer interactions and internal operations has become more critical than ever. Traditional methods of translating CRM data- whether manual or reliant on external tools - can lead to inefficiencies, errors, and disjointed workflows. Translate4Dynamics addresses these challenges by seamlessly integrating intelligent translation directly within Dynamics 365 CRM, enabling users to instantly translate field values without leaving the platform.
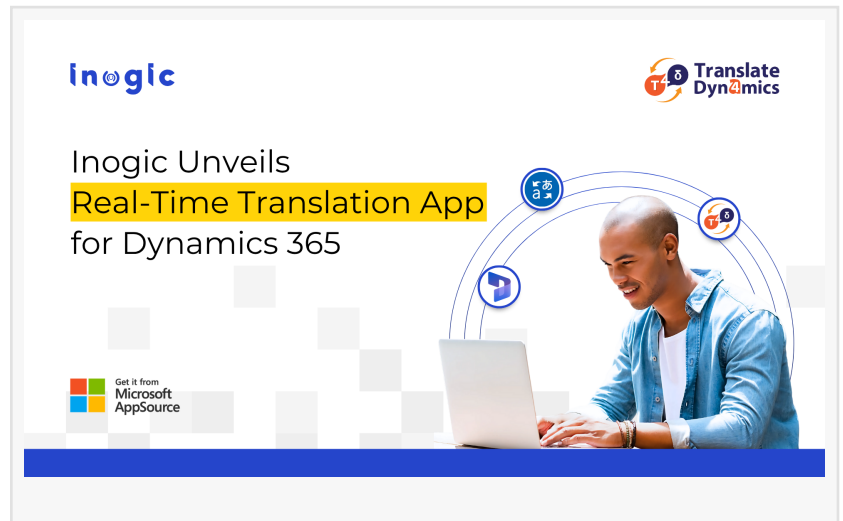

Translate4Dynamics is a vital addition to Inogic's expanding portfolio of communication and productivity solutions, empowering Dynamics 365 users to deliver multilingual support effortlessly helping organizations eliminate language barriers across sales, service, and marketing functions. With this powerful tool, teams can communicate more effectively with global customers and colleagues—without compromising efficiency or accuracy.

> "With Translate4Dynamics, we're eliminating language as a barrier within Dynamics 365 CRM, empowering businesses to operate seamlessly on a global scale"

With Translate4Dynamics, we're eliminating language as a barrier within Dynamics 365 CRM, empowering businesses to operate seamlessly on a global scale," said Anmol Sawant, VP of Technology at Inogic. "By embedding real-time translation powered by Azure AI Translator, we

are making it easier for teams to communicate and serve customers effectively—no matter where they are or what language they speak."

What Makes Translate4Dynamics a Must-Have?

1) On-Demand CRM Translations: Instantly translate configured fields within Dynamics 365 CRM using supported languages—offering flexible, real-time translation without leaving the platform.
2) Side-Pane Translation View: View original and translated text side by side directly within CRM records, making it easier to understand and compare multilingual information at a glance.
3) Rich Text Field Translation: Effortlessly translate rich text fields while preserving formatting, colors, fonts, and layout.
4) Configurable Column Translation: Select which CRM fields to include for translation, allowing organizations to customize the experience based on their specific business communication needs.

Translate4Dynamics is now available for Microsoft Dynamics 365 users and can be seamlessly integrated into existing CRM environments. For more information, a free trial, or to schedule a personalized demo, visit www.inogic.com or contact crm@inogic.com.
