LOS ANGELES, CA, UNITED STATES, July 2, 2025 /EINPresswire.com/ -- Ozzy like you never heard him before!

Billy stripped the instrumentation back and let Ozzy's voice shine.

Accompanied by Fred Coury's beautiful orchestration performed by a 57 piece Orchestra and an acoustic guitar solo by Steve Stevens this song is EPIC!

Billy Morrison and Ozzy Osbourne released a stripped-down version of their epic track "Gods of Rock N Roll" on July 1st across all streaming platforms, with a special vinyl limited edition double A side that features both versions of the song available July 4th via TLG | ZOID, distributed by Virgin Music Group.

Earlier this year, the powerful orchestral version became a Top 10 Rock Radio hit, and now fans will experience the song in a whole new light with a stripped-down version that showcases Ozzy like never before.

Produced and reworked by Billy Morrison, this version removes the guitars and drums, and adds a bass track from Chris Chaney, allowing Ozzy's unmistakable vocals to take center stage. The track features Fred Coury's masterful orchestration and a hauntingly beautiful acoustic guitar solo by Steve Stevens (Billy Idol), bringing new emotional depth to the already iconic song.
