

WinStar Responds to Return of the M&A Market and Venture Capital

NEW HAVEN, CT, UNITED STATES, July 14, 2025 /EINPresswire.com/ -- WinStar is responding to the beginning of a rebound in M&A and venture capital by expanding its services that provide indepth research for acquisitions, divestments and investor sourcing. WinStar is also publishing Research Reports focused on growth sectors and recently released its <u>Global Data Center</u> <u>Leaders and Innovators Research Report</u>.

"Deal volume has increased notably for transactions exceeding \$100 million, supported by an 18% rise in activity across the middle market and lower middle market in 2024," said Dr. David Bowen, Managing Director. Dr. Bowen further noted, "We expect a resurgence in transaction activity during the second half of 2025, driven by continued progress on inflation control, the potential for interest rate reductions and increased defense spending, which is positively impacting multiple sectors." He added, "We anticipate a very active second half of the year, particularly if there are conflict settlements in Gaza and Ukraine."

WinStar also projects a rise in venture capital investment, underpinned by the planned \$20 billion in cuts of federal grants to universities aimed at supporting early-stage biotech and other emerging ventures. In 2024, approximately \$844 billion was raised for private equity investments, with venture capital comprising \$368 billion, or 43% of the total.

In 2024, WinStar won the Investment Sourcing Service of the Year Award by M&A Advisor for the quality of its research.
