

Fluoropolymer In Healthcare To Witness Remarkable Growth, Estimated To Reach \$2.9 Billion In 2025

*The Business Research Company's
Fluoropolymer In Healthcare Global
Market Report 2025 – Market Size,
Trends, And Forecast 2025-2034*

LONDON, GREATER LONDON, UNITED
KINGDOM, July 2, 2025

[/EINPresswire.com/](#) -- The

[fluoropolymer in healthcare market](#)

has seen robust growth over the past few years. The market is predicted to grow from \$2.73 billion in 2024 to \$2.9 billion in 2025, indicating a compound annual growth rate CAGR of 6.2%. This upward trend in the historic period can be attributed to the growing adoption of medical catheters, rising usage of minimally invasive surgeries, the demand for biocompatible materials, the preference for disposable medical equipment, and a surge in chronic diseases prevalence.

Do You Know The Expected Growth Of The Fluoropolymer In Healthcare Market In The Following Years?
The market size of fluoropolymer in healthcare market is anticipated to see substantial growth in the next few years. It's estimated to rise to \$3.64 billion in 2029 at a compound annual growth rate CAGR of 5.8%. The expansion during this forecast period can be ascribed to the increasing demand for advanced drug delivery

systems, the use of fluoropolymer coatings in surgical instruments, rising investment in healthcare infrastructure, growing awareness of infection control, and increasing need for temperature-resistant materials. Major trends influencing this growth include innovations in medical tubing design, advancements in biocompatible fluoropolymers, development in additive manufacturing, research into sustainable fluoropolymer materials, and the integration of smart fluoropolymer devices.

What Are The Key Drivers For The Growth Of The Fluoropolymer In Healthcare Market?

One major driver expected to propel growth in the fluoropolymer in healthcare market is the rising demand for minimally invasive surgical devices. These advanced instruments, used to conduct procedures through small incisions, aim to shorten recovery time and minimize complications. They are increasingly popular due to their ability to reduce bodily trauma and shorten hospital stays. Fluoropolymers, vital in these devices for their chemical resistance, low friction, and biocompatibility, enhance device performance and patient safety. Their durability supports precise and reliable surgical procedures. In 2024, surgical products were used in nearly 2.7 million procedures, marking a 17% increase from the previous year, according to Intuitive Surgical, Inc., a US-based medical device company.

Which Are The Major Companies Influencing The Fluoropolymer In Healthcare Market?

Significant firms operating in the fluoropolymer in healthcare market include Saint-Gobain S.A., Daikin Industries Ltd., 3M Company, Solvay S.A., AGC Inc., DuPont de Nemours Inc., Arkema S.A., Orbia, The Chemours Company, Datwyler, Kureha Corporation, Pexco, Gujarat Fluorochemicals Ltd., Specialty Coating Systems Inc., W.L.

What Are The Emerging Trends In The Fluoropolymer In Healthcare Market?

Major companies fluoropolymer in healthcare market are focusing on the development of advanced products, such as fluoropolymer-based fluidic systems to enhance precision and durability in medical devices and diagnostics. These systems utilize fluoropolymers to manage fluid flow accurately and safely in medical and laboratory settings. In May 2023, Biotech Fluidics AB, a Sweden-based provider of degassing and fluidic solutions, launched a range of traceable, certified PEEK, and fluoropolymer flexible tubing. This tubing meets strict regulatory standards including ISO 10993, US Pharmacopeia Class VI, FDA Title 21, and EU Regulation 1907/2006 DEHP content. It is available in bulk and pre-cut, and can also be provided sterilized in cleanroom assemblies.

How Is The [Fluoropolymer In Healthcare Market Segmented](#)?

The fluoropolymer in healthcare market covered in the report is segmented as follows:

- 1 By Type: Polytetrafluoroethylene PTFE, Polyvinylidene Difluoride PVDF, Fluorinated Ethylene Propylene FEP, Ethylene Tetrafluoroethylene ETFE, Polyvinyl Fluoride PVF, Other Types
- 2 By Form: Films, Coatings, Wrappings, Tubings
- 3 By Application: Medical Devices, Pharmaceutical Packaging, Laboratory Equipment, Protective Clothing
- 4 By End-User: Hospitals And Clinics, Pharmaceutical Companies, Research Laboratories, Contract Manufacturing Organizations CMOs

What Are The Regional Insights Into The Fluoropolymer In Healthcare Market?

In 2024, North America was the largest regional contributor to the fluoropolymer in healthcare market. Asia-Pacific is projected to display the fastest growth in the forecast period, thus covering a broad regional market including Asia-Pacific, Western Europe, Eastern Europe, North America, South America, Middle East, and Africa.
