This book speaks to anyone who's ever questioned their path in life. From students and young adults to professionals seeking change, it has something for everyone. And anyone who remembers the post-war years firsthand can find several relatable events and experiences.

Wall's writing offers insight into avoiding obstacles, seizing opportunities, and finding one's way with curiosity, humour, and determination.

"I wrote this book to encourage young people to value education more than I did when I was younger," says Wall. "But I also want people to understand that it's never too late. Life isn't a straight path. You can take a wrong turn and still end up where you're supposed to be."

He shares his experiences in Asia and Africa, which provide a distinctive view of international

business, diplomacy, and cultural exchange.
