

# Charge Home Solutions Expands Tesla-Certified Powerwall 3 Installations Nationwide

*Tesla-certified installer Charge Home Solutions now offers Powerwall 3 installation nationwide amid growing demand for reliable home energy storage.*

LAS VEGAS, NV, UNITED STATES, July 3, 2025 /EINPresswire.com/ -- [Charge Home Solutions](#), a Tesla-certified installer, has announced the expansion of its [Powerwall](#) 3 installation services to all 50 U.S. states. The move comes as homeowners across the country seek reliable energy storage solutions to complement solar systems and support electric vehicle charging.

The Tesla Powerwall 3 is designed to store energy for use during power outages, peak utility times, or when solar generation is unavailable. With a capacity of 13.5 kWh, it enables energy independence and enhances home energy management. The system integrates with the Tesla app for real-time monitoring and can be paired with solar panels and EV chargers.

Charge Home Solutions employs licensed electricians nationwide and is trained to install Tesla energy products in compliance with local permitting and utility regulations. The company's expanded coverage ensures homeowners in both urban and rural areas have access to certified Powerwall installation.

"We're seeing growing interest in integrated home energy systems that include storage, solar, and EV charging," said Ariel Asayag, CEO of Charge Home Solutions. "Our goal is to provide homeowners with a streamlined path to energy resilience through Tesla-certified installation."

In addition to Powerwall 3, Charge Home Solutions also provides installation of:

Tesla Wall Connectors

We're proud to help families gain energy independence with Powerwall 3—it's reliable, smart, and ready for the future.

– Ariel Asayag, CEO, Charge Home Solutions"

Level 2 EV chargers for various brands

Battery systems for homes with or without rooftop solar

Powerwall 3 is especially relevant as extreme weather and grid disruptions become more common. Homeowners can rely on the system to maintain power for key appliances or transition to full-home backup depending on configuration.

The company offers consultations, permitting assistance, and insured installation with licensed electricians.

About Charge Home Solutions:

Charge Home Solutions is a national energy services provider specializing in electric vehicle charger and battery storage system installations. Certified by Tesla, the company operates in all 50 states with a focus on safety, code compliance, and professional service.
