The cash management safes segment is expected to experience fastest growth throughout the forecast period

Based on type, the cash management safes segment held the highest market share in 2023. The adoption of cash management safes is on a continuous rise among end users, owing to the rapidly evolving infrastructure safety structure, increased application areas; increased number of cash-intensive environment facilities; increased acceptance of end-of-the-day deposit

management solutions that facilitate reduction in time for counting money, cash touch points, administrative expenses; and enhanced protection from theft and armed robbery.

The banking segment is expected to experience fastest growth throughout the forecast period

Based on the end use, the banking segment held the highest market share in 2023. As banks require robust safes and vaults to securely store large amounts of cash, which makes them primary consumers of high-security storage solutions.
