

LightBulbSurplus.com Expands LED Driver Selection with Over 212 Models Now Available

LightBulbSurplus.com expands inventory to 212+ LED drivers, including emergency, constant current, programmable, and switchable models for all lighting needs.

SANFORD, FL, UNITED STATES, July 12, 2025 /EINPresswire.com/ --

LightBulbSurplus.com, a leading online distributor of commercial lighting solutions, has significantly expanded its product lineup to include one of the most comprehensive selections of [LED drivers](#) in the industry.

The company now offers customers over 212 different models, covering nearly every application and specification needed for modern LED lighting projects.

Over 212+ LED drivers in Stock

LED drivers play a crucial role in the performance, efficiency, and longevity of LED lighting systems. Recognizing the growing demand for high-quality, specialized drivers, LightBulbSurplus.com now features a wide assortment—ranging from emergency and constant current to constant voltage, programmable, and switchable models. This expansion ensures that contractors, facilities managers, and lighting professionals can find the exact solution for any retrofit or new installation project.

“

Expanding our LED driver lineup shows our commitment to reliable, versatile solutions—offering more choices and value for contractors and businesses nationwide.”

Mark Hudson

“Our goal is to be the go-to destination for lighting professionals seeking reliable, high-performance products,” said a company spokesperson for

LightBulbSurplus.com. “By offering such a diverse array of LED drivers—from emergency backup units to programmable and switchable designs—we’re helping our customers meet code requirements, optimize energy efficiency, and support even the most challenging lighting environments.”

Among the 212+ models now in stock, customers will find:

[Emergency LED Drivers](#): Ensuring safe egress and code compliance during power outages.

Constant Current Drivers: Ideal for powering LED fixtures with precise output for maximum longevity and uniformity.

Constant Voltage Drivers: Supporting strip lights, signage, and specialty applications with steady power delivery.

Programmable and Switchable Drivers: Offering flexibility to fine-tune power output, current, and voltage for custom lighting designs.

With real-time stock status, detailed product specs, and fast nationwide shipping, LightBulbSurplus.com aims to streamline the purchasing process for its customers. The expanded LED driver selection reflects the company's commitment to serving as a single-source supplier for [wholesale lighting](#) needs.
