Qatar's Ministry of Education and Higher Education has announced that it will be introducing a new curriculum for the 2026 school year. The new curriculum will focus on developing students' critical thinking and problem-solving skills, as well as their ability to work in teams and communicate effectively. The Ministry also plans to introduce a new assessment system that will be more holistic and comprehensive, taking into account students' overall performance and progress throughout the year, rather than just their scores on standardized tests.
