- There were delays in product approvals and launches which further restricted the expansion of the market. Furthermore, most of the clinical trials were postponed to avoid spread of infections, thus slowing down the drug development process.
- However, the pandemic led to the increase in mental health problems worldwide and the healthcare sector has been restructured to provide safer healthcare facilities. Hence, the schizophrenia drugs market is anticipated to grow in the coming years.

The report presents a comprehensive breakdown of the global schizophrenia drugs market,

categorizing it by treatment, distribution channel, therapeutic class, and region. Through detailed tables and figures, the analysis provides valuable insights for market players, investors, and new entrants to identify high-growth sub-segments.

In terms of treatment, the oral segment held nearly three-fourths of the global market share in 2021 and is projected to maintain its leading position throughout the forecast period.

Meanwhile, the injectable segment is anticipated to register the highest CAGR of 6.2% by 2031.
