

CloudIBN's VAPT Services: Dedicated to Securing India's Growing Industries

CloudIBN's VAPT services safeguard India's growing industries with tailored, industry-specific cybersecurity solutions.

PUNE, MAHARASHTRA, INDIA, July 3, 2025 /EINPresswire.com/ -- As India's economy surges ahead across sectors like fintech, healthcare, manufacturing, retail, and smart infrastructure, the complexity and severity of cyber threats are also rising. CloudIBN, a global cybersecurity frontline leader, reaffirms its commitment to India's digital revolution by offering industry-tailored Vulnerability Assessment and Penetration Testing (VAPT Services)—purpose-built to address the unique security needs of India's most dynamic industries.

CloudIBN - VAPT Services

CloudIBN's VAPT Services are no generic packages—they're sector-specific, compliance-driven, and designed to safeguard sensitive assets while enabling growth and innovation in India's fast-growing industries.

Why Industry Focus Is Crucial for VA & PT Services in India

Each Indian industry carries distinct digital assets, regulations, and threat patterns:

1. Fintech – API-based payment services, UPI, digital lending
2. Healthcare – Patient records, medical devices, telemedicine platforms
3. Manufacturing – SCADA networks, vendor portals, OT systems
4. Retail & E-commerce – POS networks, inventory systems, customer data flows
5. Smart Cities/Utilities – IoT grids, e-governance platforms, public data systems

By tailoring VAPT Services to these specific ecosystems, CloudIBN ensures high-impact testing, compliance alignment, and reliable remediation.

CloudIBN Sectorized VA & PT Audit Services

1. Fintech & BFSI

- UPI/RBI API penetration testing
- Mobile wallet, KYC, and payment gateway review
- RBI compliance-focused security audit

2. Healthcare

- Telehealth testing, EMR security checks
- IoMT device penetration tests
- DISHA and HIPAA-aligned reporting

3. Manufacturing

- PLC/SCADA assessments
- Vendor portal security and patch management testing
- Operational tech (OT) security readiness checks

4. Retail & E-commerce

- POS terminal exploitation testing
- Seasonal load threat simulation
- Data flow mapping across sales and marketing systems

5. Smart Cities & Utilities

- Public WiFi and IoT device evaluation
- Civic portal red-teaming
- Privacy and data safety tests

Hybrid Approach: Custom Testing + Global Best Practices

CloudIBN ensures thorough coverage by:

1. Starting with automated vulnerability scans
2. Executing manual penetration testing focused on industry-specific threats
3. Mapping vulnerabilities to both RBI, CERT-In, IRDAI, and global standards (NIST, ISO, OWASP)
4. Delivering industry-specific remediation playbooks with embedded compliance tools
