Meet Chad Levin: Founder, CEO, and Dental SEO Expert

The vision behind 7 Digit Dental Marketing began with Chad Levin, who founded the company in

2007 with a mission to create a marketing agency that actually delivers on its promises. Chad Levin is a digital marketing strategist and industry leader with more than 2 decades of experience helping dental professionals grow their practices through targeted online dental marketing.

Recognized as one of the top dental SEO experts in the U.S., Chad Levin has been featured in many dental publications and interviews on podcasts. His insights into how search engines influence patient behavior — and how dentists can use that to their advantage — have positioned him as a go-to expert for dental practice owners and dental support organizations looking to scale.

Under Chad Levin's leadership, 7 Digit Dental has grown from a boutique agency into a nationwide powerhouse, managing millions in ad spend annually and maintaining long-term relationships with practices ranging from solo providers, to multi-location dental groups, to national dental technology partners.

Chad Levin's signature approach involves building what he calls "a predictable pipeline of high-intent patients" — using a combination of SEO, PPC, Artificial Intelligence AI, conversion optimization, and follow-up automation to help dental offices not only get leads, but convert them into lifelong patients.

"Dental SEO isn't just about ranking on Google — it's about being found by the right people at the right time," says Chad Levin. "When a dental practice ranks high in search results, gets the click, and delivers a seamless booking experience, that's where the magic happens. That's what we build at 7 Digit Dental Marketing."

#### An Industry Built on Trust and Referrals

The July 4th yacht event underscores a key value that has guided 7 Digit Dental from day one: trust. From client relationships to referral partnerships, Chad Levin and his team have built a reputation not only for delivering results, but for being a marketing partner practices can rely on.

More than 50% of 7 Digit Dental's new business comes through referrals, a statistic that reflects both the agency's performance and its culture of transparency and collaboration. The company maintains a robust referral program and regularly collaborates with consultants, DSO's, dental software providers, and other industry professionals who share its mission of helping dental practices grow.

"Referrals don't happen by accident," Chad Levin adds. "They happen when you consistently do great work and truly care about the outcome. This event is for the people who have seen that firsthand and chosen to send other dentists our way."

#### Looking Ahead

With a growing roster of clients, strategic partnerships, and an unwavering focus on delivering value, 7 Digit Dental is poised to remain at the forefront of the dental marketing world for years to come. Chad Levin sees events like the July 4th yacht celebration as a blueprint for how business should be done — with appreciation, relationship-building, and results at the center.
