Introducing the Model 98 Double Signal Cannon

Inspired by the original Model 98 cannon introduced in 1903, the Model 98 Double is a side-by-side, breech-loading cannon designed to fire two 10-gauge blank shotshells simultaneously or independently. Maintaining the same high standards of craftsmanship, this cannon features blued or nickel plated barrel options, a cast-iron carriage, and an unmistakable presence that elevates ceremonies, celebrations, and special events.

"The idea for the Model 98 Double came from watching how people actually use signal cannons—race officials, yacht clubs, reenactors, and patriotic event organizers—often need a quick follow-up shot or a louder, more commanding salute, and traditionally that meant using two separate cannons. We knew there was a better way. The 98 Double is our answer to those moments that demand more impact." — John Dunlap, Owner, Dunlap Cannon Co.

Like its single-barrel predecessor, the Model 98 Double is proudly manufactured in the United States using American-sourced raw materials and assembled with rigorous attention to detail. Each cannon reflects the enduring legacy of quality, performance, and patriotic pride associated

with the Winchester brand.

Coming June 2025

The Model 98 Double Signal Cannon will be available in a limited initial release through WinchesterSignalCannon.com at the end of June 2025. The cannons are exclusively sold and distributed by Dunlap Cannon Co. Collectors, event organizers, and enthusiasts can now experience an even more commanding version of this timeless piece of Americana.

About Gun Owners Care

Gun owners care. You care about safety. You care about preventing unauthorized access to firearms. You care about bettering your community, helping those in need and conserving wildlife and wild places for generations to come. It's time for gun owners to tell their stories, to show how they're making a difference. NSSF®, the trade association for the firearms industry, has established the Gun Owners Care® campaign to unite gun owners and the firearms industry in this common cause. Visit gunownerscare.org for more information.
