

Bisphosphonate Drug Market Report 2025 – For Strategy Officers And Market Intelligence Teams

*The Business Research Company's
Bisphosphonate Drug Global Market
Report 2025 – Market Size, Trends, And
Global Forecast 2025-2034*

LONDON, GREATER LONDON, UNITED
KINGDOM, July 4, 2025

/EINPresswire.com/ -- The

bisphosphonate drug market size has

grown strongly in recent years. It will grow from \$4.98 billion in 2024 to \$5.28 billion in 2025 at a compound annual growth rate CAGR of 6.2%. The growth in the historic period can be attributed to the high prevalence of osteoporosis, increased awareness of bone health, widespread use of alendronate and risedronate, growth of the postmenopausal women population, and expansion of bone cancer and metastasis treatment.

What Is The Bisphosphonate Drug Market Growth Forecast?

The market size of bisphosphonate drugs is expected to experience robust growth in the coming years. It will grow to \$6.66 billion in 2029 at a compound annual growth rate CAGR of 5.9%. The growth in the forecast period can be attributed to the surge in generic bisphosphonate entry, the global aging population, the rise in osteopenia diagnosis, growing cancer-related bone complications,

supportive guidelines from health authorities, and increased focus on preventive healthcare. What are the major trends to watch in the forecast period? This includes a shift toward oral bisphosphonates, technological advancements in drug delivery, digital patient engagement tools, customization based on genetics, and integration with AI for predictive monitoring.

What About The Catalyst That Propels This [Bisphosphonate Drug Market Growth](#)?

Increasing prevalence of osteoporosis is expected to propel the growth of the bisphosphonate drugs market going forward. Osteoporosis is a condition characterized by weakened bones that are more prone to fractures due to a loss of bone density. The prevalence of osteoporosis is increasing primarily due to the aging global population, as bone density naturally declines with age, compounded by lifestyle factors and insufficient preventive care. Bisphosphonate drugs help treat osteoporosis by slowing down the breakdown of bone, which strengthens bones and reduces the risk of fractures.

Who Are The Key Industry Players Taking Advantage Of This Burgeoning Bisphosphonate Drug Market?

Leading the market are formidable companies like Pfizer Inc., Roche Holding AG, Merck & Co. Inc., AbbVie Inc., Bayer AG, Novartis AG, Eli Lilly and Company, Amgen Inc., Viatris Inc., Teva Pharmaceutical Industries, Sun Pharmaceutical Industries Ltd., Apotex Inc., Aurobindo Pharma Ltd, Dr. Reddy's Laboratories Ltd., Cipla Ltd.
