

Celiac Disease Market Report 2025 – For Strategy Officers And Market Intelligence Teams

The Business Research Company's Celiac Disease Global Market Report 2025 – Market Size, Trends, And Global Forecast 2025-2034

LONDON, GREATER LONDON, UNITED KINGDOM, July 4, 2025

/EINPresswire.com/ -- In recent years, the [celiac disease market size](#) has seen

significant growth. It will grow from \$0.71 billion in 2024 to \$0.78 billion in 2025, reflecting a compound annual growth rate CAGR of 10.4%. This historic period growth can be attributed to the rising prevalence of celiac disease, increasing awareness of gluten-related disorders, growth in research funding for autoimmune diseases, rise in food allergies and sensitivities, and an overall increase in consumer health consciousness.

Celiac Disease Global Market Report 2025

What Is The Celiac Disease Market Growth Forecast?

Moving forward, the celiac disease market size is projected to witness rapid growth. Predicted to reach \$1.15 billion in 2029 at a CAGR of 10.1%, the forecast period's growth is anticipated due to factors including the rising demand for personalized medicine, expansion of healthcare infrastructure, increasing demand for nutritional counseling services, rising pediatric diagnosis rates, and focus on early life screening and prevention. Other

contributory trends include the availability of diagnostic testing, advancements in genetic testing technologies, improved screening protocols in primary care, technological innovations in ELISA and serological testing, and adoption of non-invasive diagnostic methods.

What About The Catalyst That Propels This Celiac Disease Market Growth?

Furthermore, the growth of personalized medicine is expected to be a key driver in propelling the celiac disease market growth. Personalized medicine, an approach to healthcare that customizes medical care based on an individual's genetic profile, environment, and lifestyle, has been increasing in demand due to the expanding availability of genetic testing. By enabling more accurate diagnoses and targeted treatments catered to individual patient needs, the progress in personalized medicine significantly bolsters the management strategies for celiac disease by enabling precise identification of genetic markers and individual immune responses.

Who Are The Key Industry Players Taking Advantage Of This Burgeoning Celiac Disease Market?

The market landscape exhibits a wide range of major companies operating in the celiac disease market. Key industry players include Pfizer Inc., Sanofi SA, Novartis AG, Takeda Pharmaceutical Company Ltd., Chugai Pharmaceutical Co. Ltd., Dr Falk Pharma GmbH, Theriva Biologics Inc., Equillium Inc., Immunic Inc., Barinthus Biotherapeutics Plc, Allero Therapeutics, Anokion SA, Mozart Therapeutics, ImmunogenX, Topas Therapeutics GmbH, Parvus Therapeutics Inc., AMYRA Biotech AG, Provention Limited, Precigen Inc., Zedira GmbH, AnTolRx Inc., Nemysis Ltd., and Entero Therapeutics Inc.
