Prime 1 Studio has announced the "Girls' Frontline LTLX7000" Statue. Pre-orders began July 8, 2025 (JST); release set for January 2027.

ASAKUSA, TAITO-KU, TOKYO, JAPAN,
July 9, 2025 /EINPresswire.com/ -- From the training and strategy simulation game "Girls' Frontline", LTLX7000 joins the Ultimate Premium Masterline series.

LTLX7000 is a shotgun-type Tactical Doll known for her high combat capability, backed by powerful skills and impressive stats. This 1/4 scale statue brings her iconic key visual into three-dimensional form under the supervision of illustrator AF_KURO.

The statue faithfully captures key design elements such as her refined facial features and blushing cheeks, her braided half-up hairstyle, and her outfit incorporating sheer materials. Her signature shotgun and large defensive shield have also been recreated with meticulous detail.

The base is designed to evoke a battlefield, featuring scattered rubble, ammunition, and the wreckage of destroyed enemy units. This desolate setting serves as a visual contrast to LTLX7000's composed beauty.

In addition, the bonus version includes an acrylic block featuring the title logo. With its clear finish and substantial weight, it's a collectible item that enhances the display experience.
