The automotive part cleaners and degreasers global market are projected to rise steadily from \$33.84 billion in 2024 to \$35.43 billion in 2025, and finally to a sizeable \$42.2 billion by 2029. The consistently growing market can be attributed to increasing vehicle production and sales, coupled with a rising awareness of vehicle maintenance and the significance of preventive maintenance practices.

What Is Driving The Growth Of The Automotive Part  
Cleaners And Degreasers Market?

Increasing vehicle production and sales can be identified as key drivers propelling the growth of the automotive part cleaners and degreasers market. The number of vehicles manufactured and sold within a specific period mirrors the overall performance of the automotive industry. Crucially, favorable economic conditions that enhance consumer purchasing power and business investments aid in the growth of vehicle production and sales. The efficient maintenance and repair processes supported by automotive part cleaners and degreasers invariably improve vehicle longevity and operational reliability, thereby boosting their market's growth. A report by

the European Automobile Manufacturers Association revealed that global car manufacturing and sales marked a 2.5% increase compared to the previous year, with a total of 75.5 million units in 2024.
