6.8%, the market's value is projected to increase from \$0.62 billion in 2024 to \$0.66 billion in 2025. Factors such as improved clinical research, the availability of standard treatment, and improved healthcare infrastructure have significantly contributed to this growth.

Can the Wilson's Disease Drugs Market Maintain Its Growth Momentum?

Forecasting trends suggest a positive trajectory for the wilson's disease drug market. By 2029, the market is projected to surge to \$0.85 billion, marking a compound annual growth rate CAGR of 6.5%. This growth is likely attributed to increased investments in novel drug development and gene therapy, a growing preference for personalized medicine, efficient patient awareness campaigns, increased health care funding, and more regulatory approvals. Moreover, the projected period will witness a slew of trends, including gene therapy developments, increased use of biomarkers, digital health tools integration, and orphan drug designations.

Why Is The Wilson's Disease Drugs Market Poised For Growth?

A notable driver of Wilson's disease drugs market growth is the rising incidence of genetic disorders. These disorders, stemming from abnormalities in individual DNA or due to mutations and chromosome changes, are increasing due to higher parental age. Wilson's disease drugs treat these disorders by reducing harmful copper levels caused by ATP7B gene mutations. They achieve this through enhancing copper excretion or blocking absorption, thus protecting vital organs such as the liver and brain. For instance, cystic fibrosis patient registrations witnessed a surge from 10,908 in 2021 to 11,148 in 2022, as reported by the UK-based Cystic Fibrosis Trust. Such factor cements the association between the increasing incidence of genetic disorders and the soaring Wilson's disease drugs market growth.

Who Are The Key Players In The Wilson's Disease Drugs Market?

The primary industry players in the Wilson's disease drugs market include Pfizer Inc., Merck & Co. Inc., Sanofi S.A., AstraZeneca plc, Teva Pharmaceutical Industries Ltd., Bausch Health Companies Inc., Intas Pharmaceuticals Ltd., Sun Pharmaceutical Industries Ltd., Dr. Reddy's Laboratories, Lupin Pharmaceuticals, Ultragenyx Pharmaceutical Inc., Taj Pharmaceutical Limited, Biophore Pharma Inc., Orphalan SA, Nobelpharma Co.
