

hiSky Continues its Growth Momentum with New Contracts Valued at \$31M

Contracts to supply on-the-move Smartellite™ terminals and satellite network solutions for both Government and Commercial customers.

TEL-AVIV, ISRAEL, July 7, 2025 /EINPresswire.com/ -- [hiSky](#), an Israel-based leading provider of [satellite communication](#) solutions, continues strong into the second half of 2025, having been awarded contracts to supply on-the-move Smartellite [terminals](#) and satellite network

solutions for both Government and Commercial customers.

Orders targeted to supply hiSky's satellite communication network for various global projects and platforms through tier-1 contractors. Contracts include sales of hiSky's unique SWaP ESA terminals, HUB MODEMs, and Network Management System, to be supplied during the next two years.

“

The strong momentum we are carrying is a direct result of our innovative technology and ability to deliver an operational, commercially mature global solution for mission-critical asset communication”

Shahar Kravitz, co-founder and CEO of hiSky.

hiSky's Smartellite™ Dynamic 16X16 Terminals

This milestone is a testament to the company's ability to execute its strategic business plan while meeting the market's increasing demand for scalable systems that can be seamlessly deployed across vast networks of assets, a requirement that hiSky's technology is uniquely equipped to fulfill.

“The strong momentum we are carrying through 2025 is a direct result of our innovative technology and the ability to deliver an operational and commercially mature global solution for mission-critical asset communication. The demand for satellite connectivity is growing across multiple industries, and hiSky is uniquely positioned to fulfill these

needs,” said Shahar Kravitz, co-founder and CEO of hiSky.
