

US Navy Veterans Lung Cancer Advocate Begins a National Compensation Initiative for Navy Veterans or Individuals Who Now Have Lung Cancer Because of Workplace Exposure to Asbestos Prior to 1983

WASHINGTON, DC, UNITED STATES, July 8, 2025 /EINPresswire.com/ -- The US Navy Veterans Lung Cancer Advocate says, "We are passionate advocates for navy veterans or individuals who had significant workplace exposure to asbestos prior to 1983 and who have now been diagnosed with lung cancer. Frequently compensation for a person like this might exceed \$100,000 and the process does not involve suing the navy or a former employer as we are always happy to discuss anytime at 866-714-6466." <https://USNavyLungCancer.Com>

The US Navy Veterans Lung Cancer fears that most navy veterans or individuals who prior to 1983 had significant exposure to asbestos at work and who have recently been diagnosed with lung cancer will never get compensated because they are not aware the \$30 billion-dollar asbestos trust funds were set up for them too. The group is appealing to the wife, daughter, son or loved ones of a person who now has lung cancer anywhere in the USA to please call them at 866-714-6466 to learn more about how the compensation process works-as well as instant access to one of the nation's leading law firms that can help make compensation happen.

"We are passionate advocates for navy veterans or individuals who had significant workplace exposure to asbestos prior to 1983 and who have now been diagnosed with lung cancer. Get Compensated!"

US Navy Veterans Lung Cancer Advocate

Important checklist for a Navy Veteran or individual seeking compensation who has asbestos exposure lung cancer:

- * The Navy Veteran or individual must have been exposed to asbestos prior to 1983 in the armed forces or at their place of work.
- * The lung cancer diagnosis must have been recent---preferably in the last one or two years.
- * The Navy Veteran's-Veteran's or individual's exposure to

asbestos must have been substantial and must have involved exposure to asbestos involving more than one product. The ideal Veteran or individual who now has asbestos exposure lung cancer is one who worked as a mechanic, machinist, assisted shipyard workers at a shipyard, worked as an electrician, welder, as a construction worker, plumber or pipefitter, or a member of a repair crew-maintenance crew.

* The Navy Veteran-or individual must be able to get specific about how, where and when they were exposed to asbestos-if they hope to receive the best possible financial compensation.

The Advocate says, "We do not want to overwhelm a Navy Veteran-or individual who now has asbestos exposure lung cancer with a long checklist-but to get compensated-all of these things will be necessary. Our appeal is nationwide. If the person, we have just described sounds like your husband, dad or relative--please share this article with them or their family and have them call us at 866-714-6466." <https://USNavyLungCancer.Com>
