ROLL-PACK TECHNOLOGY CHANGING THE GAME FOR RTO DEALERS

HSP's roll-pack manufacturing capabilities allow DutchCraft mattresses to be compressed, sealed, and shipped in a compact form. This innovation reduces freight costs, simplifies handling, and allows for more flexible showroom setups. For multi-store operators and fast-moving retail environments, roll-pack offers a smarter, cleaner, and more scalable solution.

HANDCRAFTED QUALITY BUILT IN OHIO

Operating out of a 75,000-square-foot facility in Orwell, Ohio, HSP Bedding Solutions blends handcrafted quality with modern production efficiency. Every DutchCraft mattress is constructed with long-term performance in mind, using trusted materials and time-honored techniques inspired by the company's Amish heritage.

DUTCHCRAFT SHOWCASED NATIONALLY

DutchCraft has recently been featured at major RTO industry events, where dealers from across the country had the opportunity to experience the brand firsthand and explore the operational advantages of roll-pack fulfillment. The strong response underscored the demand for high-quality, efficient mattress solutions in the RTO channel.
