[International Order of Fantastic](#)

[Professionals \(IOFP\)](#), which honors and

empowers visionary leaders

worldwide, has expanded its reach

with the introduction of a dynamic new

division: the International Order of

Fantastic Businesses (IOFB). This latest

initiative is designed to recognize and

elevate purpose-driven companies that

exemplify innovation, leadership, and

impact. Building on the IOFP's growing

tradition of excellence, the IOFB connects exceptional organizations with a global ecosystem of

influence, visibility, and opportunity to ensure not only that professionals leave a legacy but also

that businesses and movements created by leaders are set to leave a legacy too.

“

The IOFB, our new business division, is a natural evolution of our mission - just as we uplift professionals, the time is right to now extend that same transformative experience to businesses.”

“The IOFB is a natural evolution of our mission,” said [Dr. Allen Lycka](#), President and CEO of the IOFP and now the new business division, IOFB. “Just as we uplift professionals through recognition and connection, as we grow the time is now to extend that same transformative experience to businesses committed to leading with purpose and leaving a legacy.”

Rather than being a standalone entity, the IOFB is a strategic addition to what the IOFP already offers—uniting forward-thinking professionals who are not just growing

but growing with intention. Through selective membership, companies chosen by the IOFB benefit from elevated brand positioning, meaningful collaboration across industries for added growth, and access to exclusive resources for those who wish to stand alongside their business. It's more than a membership—it's a movement to spotlight and grow enterprises shaping the

future.

The IOFP will soon be releasing more details about the new business division and how to apply for membership.
