PUNE, MAHARASHTRA, INDIA, July 8, 2025 /EINPresswire.com/ -- In an era where cyberattacks have become not just frequent but sophisticated, CloudIBN is calling on Indian businesses to take a proactive step: book their VAPT Services assessment today. With increasing pressure from regulators, customers, and internal stakeholders to ensure robust cybersecurity measures, the need for a tested, validated, and continuously monitored security infrastructure has never been more vital.

Why VA&PT Is Essential for Every Indian Business Today

From ransomware attacks on financial institutions to data breaches at tech startups, Indian businesses across sectors are grappling with digital risk. Vulnerability Assessment and Penetration Testing (VA&PT) is the foundation of any effective cybersecurity strategy.

CloudIBN's VA & PT Services provide:

1. Identification of vulnerabilities in networks, web apps, APIs, and cloud platforms
2. Simulation of real-world attack vectors by certified ethical hackers
3. Prioritized reporting to help IT teams patch critical flaws
4. Strategic guidance aligned with India-specific compliance requirements

Don't wait for a breach to act. Book your VA&PT assessment with CloudIBN today and safeguard your business: <https://www.cloudibn.com/contact/>

What You Get When You Book a VAPT Assessment with CloudIBN

CloudIBN offers a comprehensive, enterprise-grade VA&PT experience designed for agility, compliance, and actionable outcomes.

Your assessment includes:

1. Pre-assessment scoping session with security consultants
2. Hybrid automated + manual security testing
3. Testing of web apps, APIs, cloud, on-prem, and mobile apps
4. Final report with risk scores and business impact analysis
5. Recommendations and remediation roadmap

6. One-time retesting after fixes are applied

We specialize in working with startups, SMEs, and large enterprises across India's dynamic digital economy.

Who Needs a VA&PT Assessment Right Now?

If your organization matches any of the following, it's time to book your VA&PT:

1. You process sensitive customer data
2. You're preparing for ISO 27001, PCI-DSS, or RBI compliance
3. You operate in BFSI, healthcare, e-commerce, or edtech sectors
4. You have web apps or cloud services exposed to the public
5. You've never done a full vulnerability audit before

CloudIBN's VA & PT AUDIT Services are tailored to address both known threats and hidden weaknesses.
