

DailyPay Joins Forces With Würk Payroll and HR Solutions To Offer On-Demand Pay To Thousands of Working Americans

The Partnership Is Part of the “DailyPay Built In” Initiative That Empowers Human Capital Management Providers To Offer DailyPay’s On-Demand Pay Product

NEW YORK, NY, UNITED STATES, July 8, 2025 /EINPresswire.com/ -- [DailyPay](#), a worktech company and leading provider of On-Demand Pay, is forming a strategic integration partnership with [Würk Payroll](#) and HR Solutions. In partnership, Würk Payroll and HR Solutions can now offer a broad suite of financial wellness solutions to thousands of American workers. DailyPay’s On-Demand Pay product, which empowers workers with choice and control over their earned pay, will now be available on Würk’s platform that helps businesses navigate payroll, HR, and compliance with industry-specific solutions.

This marks the latest partnership part of the “DailyPay Built In” initiative that empowers HCM providers to offer DailyPay’s On-Demand pay product. DailyPay’s On-Demand Pay product comes at no cost to employers and doesn’t require implementation, active management, or change to how such employers run payroll.

“Our new partnership with Würk speaks to our ongoing commitment to expanding our DailyPay Built In product, allowing leading HCM providers to expand their service offerings quickly and at great scale,” said Carly Brush SVP, HCM, DailyPay. “Through our On-Demand Pay product, we give clients the ability to offer employees greater financial flexibility and control through their existing payroll system without changes to their existing workflows.”

“Our mission has always been to empower businesses in highly regulated, compliance-heavy industries with the tools they need to succeed in a constantly evolving landscape,” said Deborah Saneman, CEO of Würk. “By partnering with an industry leader like DailyPay, we’re delivering modern, trusted financial tools—already used by millions in other sectors—to an industry that has long been underserved when it comes to employee benefits and workforce technology.”

Research from [Arizent](#) shows that employees with DailyPay are more productive, more engaged, and stay longer on the job. The data also indicates that over 93% of employers say DailyPay provides a valuable addition to their suite of benefits with 89% of employers saying they would recommend DailyPay to peers in the industry.

Designed with HCM providers in mind, “DailyPay Built In” integrates seamlessly into existing payroll systems, providing an immediate value-add to employers and their employees.
