Bahrain Surf Park - Club Hawaii Experience is the first surf park in the MENA region to incorporate cutting-edge Wavegarden Cove technology from Spain, a revolutionary

wave-generating system that produces up to 1,000 waves per hour. The project includes a world-class wave pool and the Club Hawaii Experience Academy, which will provide comprehensive training programs for surfers of all levels.

The surf park is expected to attract approximately 300,000 visitors per year, providing more than 140,000 surf sessions annually. It will feature F&B outlets, a spacious terrace, a retail store, cabanas, event space, and a large private entertainment area for corporate or school groups. There are plans to host a major international surfing competition at the park in 2026.

The Wavegarden Cove lagoon can accommodate up to 90 surfers per hour, catering to all skill levels from beginners to elite surfers. The wave-making technology is the least energy-intensive of its kind, and the facilities will deliver a range of social and economic benefits to the local community.

Bahrain Surf Park - Club Hawaii Experience is scheduled to open in 2026. For the latest updates and to be the first to visit the park, please visit [www.bahrainsurfpark.com](http://www.bahrainsurfpark.com).
