

Narcotics Scanner Market Size, Growth Opportunities, Analysis by Competitors and Regional Growth

Surge in smuggling cases across the globe and rise in drug and alcohol consumption fuel the growth of the global narcotics scanner market.

WILMINGTON, DE, UNITED STATES, July 9, 2025 /EINPresswire.com/ -- [Narcotics scanner market size](#) generated \$6.89 billion in 2020, and is expected to generate \$12.59 billion by 2030, witnessing a CAGR of 6.6% from 2021 to 2030.

The global narcotics scanner market is witnessing growth due to the rising incidents of smuggling across the globe and the increasing consumption of alcohol and drugs. However, restrictions on conducting drug tests in workplaces in certain countries act as a barrier to market expansion. Nonetheless, ongoing technological advancements and growing collaborations through agreements and contracts with military and law enforcement agencies are expected to create promising opportunities in the coming years.

The global narcotics scanner market is experiencing significant growth, primarily driven by the increasing consumption of drugs worldwide and the ongoing modernization of law enforcement agencies, particularly in developing nations. The rising demand for advanced security solutions to combat narcotics threats through smart technologies is a major factor fueling market expansion over the forecast period. In 2020, the airport segment held the largest share in terms of end use, while ion mobility spectrometry (IMS) technology is projected to lead in growth and market share in the coming years.

Furthermore, key players in the market are securing long-term contracts and agreements with law enforcement agencies to strengthen their market position. In 2020, the Asia-Pacific region

led the global narcotics scanner market. Countries such as the U.S., Germany, China, and India are expected to emerge as high-growth markets. The global [narcotics scanner industry](#) remains fragmented, with numerous players actively engaging in strategies such as partnerships, expansions, mergers, and new product launches to enhance their competitiveness.
