/EINPresswire.com/ -- Japanese rock star HYDE's concert performance from "HYDE [INSIDE] LIVE 2025 WORLD TOUR BEAUTY & THE BEAST" at KT Zepp Yokohama will be broadcast live in cinemas on Sunday August 10, 2025. The live viewing will be available for fans in theaters across Japan and Asia, and also via live stream worldwide.

HYDE's concert will be a specially themed "BEAUTY & THE BEAST" performance, which will split the standing room area into two halves: women (BEAUTY) and men (BEAST) on the left and right sides.

Last year, HYDE released his first original album in about five years, HYDE [INSIDE], and toured Japan, Asia, and the United States on the "HYDE [INSIDE] LIVE 2024 WORLD TOUR".

On June 21, 2025, HYDE kicked off his "HYDE [INSIDE] LIVE 2025 WORLD TOUR", which will include performances in Japan, Latin America, Asia, and Europe. HYDE's visit to Europe will be his first performance in the region since the VAMPS UK tour in 2015. The world tour will be the largest in HYDE's career, with 24 shows in 16 cities, thanks to enthusiastic fan support from around the world.

In addition to his solo work and his performances with L'Arc~en~Ciel, HYDE is known to anime fans worldwide for creating theme songs for Attack on Titan, Black Butler: Emerald Witch Arc,

Blood+, DARLING in the FRANXX, Demon Slayer: Kimetsu no Yaiba Hashira Training Arc, Fullmetal Alchemist: The Movie - Conqueror of Shamballa, Rurouni Kenshin, and numerous others.
