go-to technology platform for real-time serviceability and streamlined order processing, has officially added [Brightspeed](#), the nation's third-largest fiber builder, to its expanding portfolio of connectivity providers.

This new integration allows CableFinder users to qualify addresses, generate pricing, create contracts, and submit orders for Brightspeed Business's dedicated and shared fiber internet products. Contracts can be generated in PDF or via DocuSign and are sent directly to the Brightspeed Business team upon upload for processing.

“Adding Brightspeed Business strengthens our mission to deliver more options, more access, and more flexibility to our partners,” said Mike Trede, Managing Partner at CableFinder.

“CableFinder is a simple way for TSDs to grow fiber sales.”

"At Brightspeed Business, we're committed to delivering the fast, reliable connectivity that today's businesses demand," said Justin Suber, Director of Channel Partners at Brightspeed. "Our growing network, simplified sales process and tailored support give our partners the freedom to sell what works best for their customers. With CableFinder, we can now offer a new avenue for our partners to easily source the connectivity solutions their customers need."

Brightspeed is making a multi-billion-dollar investment in delivering multi-gig-speed connectivity to rural and suburban communities across its 20-state footprint that have historically lacked quality internet service options. The goal is to reach more than five million locations — giving homes and businesses access to the country's fastest internet service, as determined by HighSpeedInternet.com's Annual Service Provider Review 2025.
