

# ARMOR® and Teams Plus Partner to Improve Outbound Call Integrity and Brand Reputation

*Teams Plus customers gain access to spam detection, number remediation, and AI-powered insights to improve call outcomes and reputation.*

LAGUNA BEACH, CA, UNITED STATES, July 15, 2025 /EINPresswire.com/ -- PhoneBurner, the company behind the ARMOR® solution, today announced a strategic partnership with Teams Plus, a platform purpose-built to help businesses communicate more effectively and compliantly through their existing communication

applications. Through this collaboration, ARMOR® call deliverability and number reputation technology becomes available to a broader audience of users — empowering more organizations to protect their phone numbers, reach more contacts, and reduce compliance risk.

“

Partnering with ARMOR® gives our customers access to a groundbreaking layer of protection — one that directly improves visibility, trust, and call outcomes.”

*Sydney Huggins*

Teams Plus customers now gain access to real-time number testing, spam detection, and expert remediation — all without requiring changes to their existing dialers, carriers, or infrastructure. As spam tagging and number mislabeling continue to threaten connection rates and brand trust, this partnership offers a timely solution.

“Teams Plus is a forward-thinking partner that understands

what today’s outbound teams are up against,” said Chris Sorensen, CEO of PhoneBurner.

“Together, we’re equipping Teams Plus’ clients with the tools performance-driven, compliance-conscious businesses need to communicate with confidence.”

The partnership also includes access to ARMOR® analytics and ARTHUR, a first-of-its-kind AI Answer Rate Technician that synthesizes call performance data, identifies patterns and anomalies, and surfaces actionable insights to help teams fine-tune their strategies and drive

ARMOR® and Teams Plus partner to improve outbound call integrity

more successful conversations.

“Our customers count on us to deliver secure, compliant, and high-performing communication tools,” said Sydney Huggins, Client Success Manager at Teams Plus. “Partnering with ARMOR® gives our customers access to a groundbreaking layer of protection — one that directly improves visibility, trust, and call outcomes.”

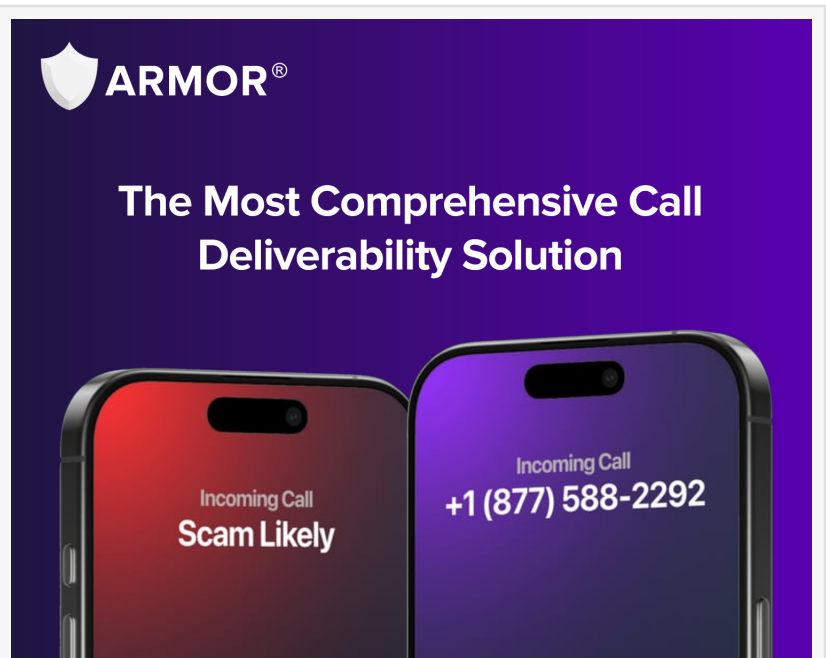

ARMOR® continues to expand its footprint through strategic partnerships with platforms and MSPs that prioritize call integrity, compliance, and customer connection. This collaboration with Teams Plus reflects a shared commitment to helping modern organizations overcome deliverability challenges and build more trusted outreach.

#### About ARMOR®

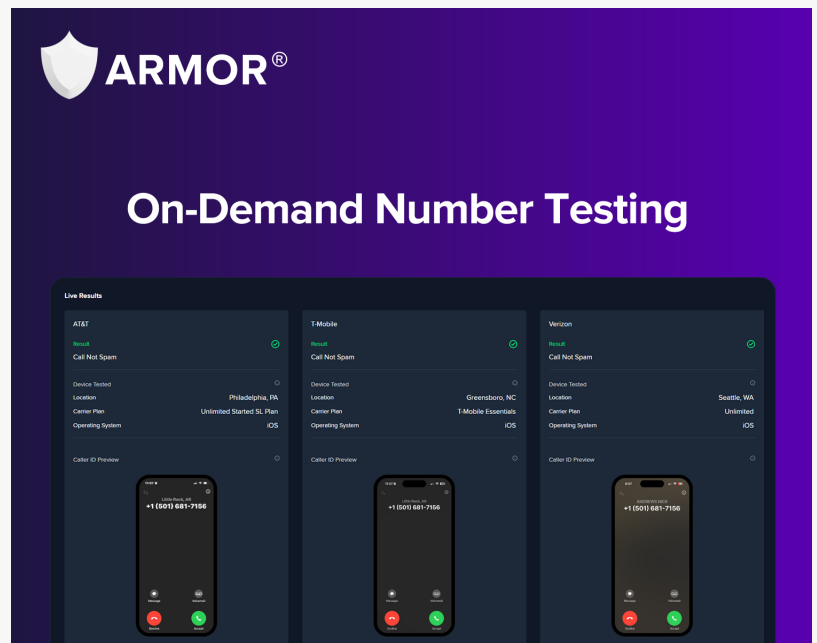

The ARMOR® solution is a powerful call deliverability platform [developed by PhoneBurner](#), a leading provider of outbound communication software. Designed for maximum compatibility, ARMOR® technology helps businesses protect their phone numbers from spam flags and other reputation threats — without requiring changes to their carrier, dialer, or infrastructure.
