

Mobilisights and Vinli Enter Into New Agreement

DALLAS, TX, UNITED STATES, July 15, 2025 /EINPresswire.com/ -- Vinli, a leading innovator in mobility and automotive data intelligence, has entered into a new agreement with Stellantis' commercial vehicle connectivity platform, Mobilisights. This partnership represents a significant advancement, enhancing Vinli's ability to deliver world-class insights for fleet management, risk analytics, and next-generation mobility solutions.

This collaboration marks a major milestone, adding Stellantis to Vinli's growing list of OEM integrations. Mobilisights, the Data as a Service (DaaS) business unit of Stellantis, delivers connected vehicle data and analytics on vehicles across its extensive brand portfolio, including Ram, Dodge, Chrysler, Jeep®, and FIAT in North America.

“

By integrating with Vinli's platform, Stellantis customers and drivers will be able to obtain unmatched benefits in safety, productivity, operational efficiency and cost management.”

Aditya Nath, VP Sales for North America at Mobilisights

“With Mobilisights now part of the Vinli ecosystem, we further our mission to unlock smarter, safer, and more efficient mobility through connected data,” said Matt Himelfarb, Chief Executive Officer at Vinli. “The breadth of Stellantis' vehicle lineup, combined with Vinli's data intelligence capabilities, offers powerful value to our enterprise clients.”

The agreement allows Vinli's enterprise customers—including top-tier insurers, fleet operators, and mobility service providers—access to accurate, near

real-time vehicle data directly from Stellantis' connected vehicles. With fleet owner consent and in compliance with Stellantis' data privacy and governance standards, this integration empowers customers to gain deeper visibility into driver behavior, optimize fleet performance, improve safety outcomes, and increase profitability through predictive and actionable insights.

Vinli's platform continues to redefine connected mobility, using advanced data normalization and analytics across multiple OEM sources. By incorporating Mobilisights' fleet data streams into its platform, Vinli expands its footprint and accelerates the delivery of high-impact, data-driven solutions for the automotive industry.

"We're excited to collaborate with Stellantis and see tremendous potential in what we can achieve together," added Himelfarb. "Expanding our OEM partnerships ensures that Vinli remains at the forefront of innovation and value creation for connected fleets."

"We are super excited to add a highly innovative and customer focused company like Vinli to our partnership list. By integrating with Vinli's platform, advanced technology and predictive analytics, Stellantis customers and drivers will be able to obtain unmatched benefits in areas of safety, productivity, operational efficiency and cost management." Said Aditya Nath (VP Sales for North America at Mobilisights).
