Now in its seventh year, the prestigious awards program celebrates the transformative power of partnership. It showcases how partners are revolutionizing industries through SS&C Blue Prism's AI-infused automation, helping to drive progress toward agentic capabilities, increasing value for customers and delivering more breakthrough innovation.

Global Head of Partnerships for SS&C Blue Prism, Michael Guidry, commented: “Congratulations to SimpliSmart, a valued partner committed to driving excellence through expertise and innovation. Your dedication to empowering

our joint customers with AI-powered automation continues to transform business outcomes across organizations.”

SimpliSmart received the SS&C Blue Prism Partner Excellence Award in Global Client Business Impact: Healthcare for its transformative work with Indiana University Health, where its automation solutions significantly reduced manual workload for the pathology team. SimpliSmart also developed a standardized Robotics Process Automation (RPA) roadmap to identify and implement automation opportunities across IU Health's global enterprise. In less

than two years, the team successfully delivered over 50 process automations, resulting in more than \$2 million in annual cost savings. SimpliSmart's AI-powered automation services support clients in healthcare, life sciences, insurance, and manufacturing by streamlining complex workflows, enhancing data security, and accelerating operational performance.

"We are honored to receive the SS&C Blue Prism Partner Excellence Award, which recognizes the real-world results our clients are achieving through AI-powered automation," said Matt Gustitus, Founder & Lead Advisor, at SimpliSmart. "By leveraging the SS&C Blue Prism platform and methodology, we've helped healthcare organizations accelerate innovation, enhance patient and customer experiences, and improve operational efficiency. This award underscores our commitment to delivering intelligent automation solutions that drive meaningful and measurable value to employees and companies. As more healthcare providers embrace AI and automation, we're excited to deliver meaningful results that improve their transformation journeys."
