

Pre-Orders Opened on July 17 for 'Guyver I Comic Art Color Edition' Statue

Prime 1 Studio has announced the "Guyver I Comic Art Color Edition" Statue. Pre-orders began July 17, 2025 (JST); release set for February 2027.

ASAKUSA, TAITO-KU, TOKYO, JAPAN, July 18, 2025 /EINPresswire.com/ -- The character "Guyver I" from the manga "Bio Booster Armor Guyver" returns as a "Comic Art Color Edition" statue. Based on the "UPMGV-01UT Guyver I" released in 2017, this version features a newly developed paint scheme inspired by the manga's cover illustrations and official artbooks.

Ultimate Premium Masterline Bioboosted Armor Guyver Guyver I Comic Art Color Edition

The suit's cyan-based color palette incorporates gradient shading on the shoulders, chest, and thighs to enhance depth and contrast. The Control Metal on the head features a metallic finish, while the muscle fiber textures are brought to life with a specialized metallic coating. The Zoanoid "Ramotith" lies at the statue's feet, portrayed with damage detailing evocative of full-color manga pages.

A version is also available that includes optional parts such as an alternate head revealing Sho Fukamachi's face and an upper torso depicting the Mega-Smasher being deployed. These components allow for a variety of display options.

The Ultimate Bonus Version includes an additional left arm part that recreates the pose of removing the mask by hand. When combined with the face-revealing part, it replicates the iconic cover illustration from Volume 5 of the original manga.
