

12New.AI launches AI agent for Autonomous Tender Search

TenderAgent.AI scans federal and local procurement portals, selecting tenders that best align with the qualifications and capabilities of your company.

WASHINGTON DC, DC, UNITED STATES, July 22, 2025 /EINPresswire.com/ -- 12New.AI introduces [TenderAgent.AI](#), an autonomous AI agent that automates the discovery of relevant tenders across various portals, including SAM.gov, saving up to 90% of the time that you'd spend on manual research.

Using an advanced Large Language Model (LLM), TenderAgent.AI identifies the most relevant opportunities based on the company's service description in real time, so you don't need to waste time browsing across different tender platforms and sifting through endless RFPs and tender documentation.

“

We've automated one of the biggest pain points for small businesses—manual tender monitoring, which can take up to 40 hours a month. For small teams, that's a major burden.”

Vitaliy Goncharuk, founder and CEO at 12New.ai

EU tender portals in the near future.”

The image shows a promotional graphic for TenderAgent.ai. It features a green and yellow background with the text "TenderAgent.ai" and "AI for Public Tender Search ✨". On the right, there is a screenshot of the application interface showing a list of 134 opportunities. The interface includes tabs for "All", "Focused", and "Featured". The list of opportunities includes items like "AI Content Filtering for Public Safety Channels", "Moderation System for City Complaint Portal", and "Civic Threat Detection", each with a "Details" button, a "Share" button, and an "AI Chat" button. The background of the graphic has a subtle pattern of overlapping circles.

Provide the description of your service once, and have only the most relevant tenders delivered to your inbox every day.

Provide the description of your service once, and have only the most relevant tenders delivered to your inbox every day.

Vitaliy Goncharuk, Founder and CEO of 12New.AI:

“We've automated one of the biggest headaches for small businesses—the time spent monitoring tender portals manually, which can eat up to 40 hours a month. For small teams with limited resources, that's a massive burden. Right now, we're covering U.S. federal tenders, but we'll soon expand to the state level as well. We also plan to add

What Problem Does It Address?

Manual search for the right tenders takes tens of hours of your team's week time.

- You need to read extensive documentation to determine if your business is eligible for the tender.
- New tenders emerge every day, so it's essential to browse the platform regularly to avoid missing suitable opportunities.
- There are many tender portals, and monitoring all of them can be challenging and time-consuming.

[How Does TenderAgent.AI Solve It?](#)

TenderAgent.AI scans federal and local procurement portals, selecting tenders that best align with the qualifications and capabilities of your company.

It delivers results in minutes. Here's how it works:

- Step 1: Register and provide detailed descriptions of your services, specifying any regional or budget preferences.
- Step 2: Using a Large Language Model from OpenAI, TenderAgent.AI automatically matches your services to all published tenders across multiple portals and cherry-picks the best opportunities tailored to your services.
- Step 3: Then TenderAgent.AI monitors emerging RFPs and sends selected tenders daily to your email.

Register to gain early access to TenderAgent.AI.
