

AMU Expands to the United States as an Authorized Institution in Utah

OREM, UT, UNITED STATES, July 17, 2025 /EINPresswire.com/ -- American Management University ([AMU](#)) is pleased to announce its recent authorization to operate in the state of Utah, USA. This significant milestone marks AMU's continued growth as an internationally recognized provider of quality higher education.

With this new authorization in Utah, AMU is approved to offer a diverse range of degree programs, including associate's, bachelor's, master's, and doctoral degrees in business administration. This strategic expansion into the U.S. further enhances AMU's ability to meet the educational aspirations of students globally.

This state authorization demonstrates AMU's commitment to adhering to rigorous educational standards and delivering academic excellence to its students.

Looking ahead, AMU plans to extend its authorization to additional states, including California, as part of its long-term strategy toward obtaining recognized U.S. accreditation. Achieving accreditation in the United States presents distinct challenges, notably the requirement for institutions to operate as unaccredited for a minimum period before qualifying for accreditation consideration.

American Management University students sit in meeting at California learning site.

AMU is proactively addressing these challenges by ensuring compliance with all regulatory expectations and maintaining transparency throughout its expansion process. Students enrolling through the Utah-based operations will benefit from AMU's international accreditation, exceptional faculty, and student-centered educational approach.

We are excited about this opportunity to serve even more learners worldwide, providing them with accessible, flexible, and top-quality education.
