What American Patients Are Saying

Went December of 2023. Writing this review in December of 2024. Lived in ATL, GA USA at the time, and traveled to Turkey to get the procedure done. I was skeptical, but couldn't have been more impressed with the entire process. They picked me up promptly in a nice van at the airport. Dropped me off at the nice hotel. Food was provided. The clinic was clean, and men from all around the world were there to get their hair done. They were professional, clean, and reassuring. I ended up not eating my lunch so I can power through and keep going (I had a lot of work done). They even drove my meal back to my hotel, because they forgot to hand it to me after the procedure. Unreal service. They did a fantastic job, and checked in with me once a month for the following year. Hair looks fantastic.

TLDR: Was skeptical and nervous at first. They did a fantastic job, and would do it again in a heartbeat.

I had an amazing experience from beginning to end when I recently visited Smile Hair Clinic. Because of the team's exceptional punctuality, all appointments and procedures were completed on schedule. During my stay, the hotel accommodations were excellent, offering a cozy and tranquil setting. Every employee went above and beyond to make sure I was comfortable and satisfied, and the service was excellent. To all of my friends and anyone else thinking about getting their hair restored, I heartily recommend Smile Hair Clinic. They really went above and beyond what I had anticipated!

This place was amazing! I'm from the USA and was slightly skeptical going to Turkey as it was unknown for me but was pleasantly surprised! From start to finish from pickup smile hair clinic was on it. Great hotel and experience. The doctors and medical team were all very friendly and knowledgeable plus very experienced. I would definitely visit again. Thanks Smile Hair Clinic! Five stars!

I had a good experience with Smile Hair Clinic. They were very responsive when it came to

answering my messages, and any questions that I had. They also did a good job of informing me of the process and what to expect. Once I landed in Istanbul, the clinic was good about coordinating my pickup, and getting me to my hotel. The medical team was also very friendly, and talked to me about my hair goals, and tempering my expectations. If you have a preference or concern, don't be afraid to speak up, as they are very receptive to your input. The clinic itself is organized, and kept immaculately.
