WASHINGTON DC, DC, UNITED STATES, July 17, 2025

[/EINPresswire.com/](https://EINPresswire.com/) -- VFS Global has announced the launch of 38 new UK Visa Application Centers across the United States marking a significant enhancement in the visa application experience for customers. This marks a transition from the current Application Support Centers operated by the US Department of Homeland Security to a dedicated network managed by VFS Global.

The newly expanded network is designed to accommodate recent changes in the UK visa application process for customers in the United States. Customers will now be

required to book an appointment at their nearest VFS Global UK Visa Application Centre, attend the site on their scheduled date and time, submit biometrics, and present their passports at the same location – eliminating the need to courier documents for processing.

This transition is expected to simplify the application journey for customers and streamline processing for both the customer and UK Visas and Immigration.

Amit Kumar Sharma, Head – North America & Caribbean, VFS Global, announced, "We are excited to enhance the UK visa application process for U.S. residents, making it more comfortable and convenient. Having partnered with UK Visas and Immigration for over two decades, we are certain this new system will provide travelers with a smoother and more streamlined experience."
