“

Elevating Business Processes As a SAP Signavio Certified Partner.”

Nikhil Agarwal

Real-time product and process modelling, analysis, and optimisation are all made possible by [SAP Signavio](#), which stands at the forefront of transforming across many industries. BPX's new offerings have been carefully crafted to help companies across

diverse industries such as manufacturing, automotive, energy, and healthcare bring [SAP Signavio](#) into their business processes in a seamless fashion. These companies can drive innovation, maximize process effectiveness, and reduce expenses with the help of BPX, which works to fill the gap between technology development and operational effectiveness.

"Our commitment to empower both best-in-class digital twin companies and best-in-class digital twin startups, BPX's purpose is to power digital transformation at all levels," said Nikhil Agarwal, founder and CEO of the company. "Digital twins are not just a tool, but rather strategic assets that enhance productivity and give businesses a competitive edge against others. To empower businesses to best welcome this paradigm shift, our services are tailored to meet individual needs."

Rupal Agarwal, a co-founder at the company, stressed, "Digital twin technology businesses often need something more than a technical solution; they need strategic alignment with their professional goals. Due to our extensive experience in business process management and our experience with digital twin use cases, BPX is the ideal partner for digital twin technology businesses that want to achieve long-term growth and nurture innovation."
