

# GB Group Global and Airbrij LLC Announce Strategic Partnership to Pursue Global Smart City Opportunities

WASHINGTON, DC, UNITED STATES, July 30, 2025 /EINPresswire.com/ -- [Airbrij LLC](#), a leading innovator in smart infrastructure solutions, and [GB Group Global](#), a diversified conglomerate with extensive international reach, today announced a strategic partnership to collaboratively pursue smart city development opportunities around the globe. This alliance brings together Airbrij's technological expertise with GB Group Global's market access and project execution capabilities, creating a formidable force in the rapidly expanding smart city sector.

The collaboration will focus on delivering integrated, cutting-edge solutions that enhance urban living through advanced technology. Key areas of focus for this partnership include:

- Smart Mobility: Implementing intelligent transportation systems, connected vehicle infrastructure, and efficient public transit solutions.
- Sustainable Energy: Developing smart grids, renewable energy integration, and energy-efficient building management systems.
- Public Safety & Security: Deploying advanced surveillance, emergency response systems, and secure data infrastructure.
- Digital Connectivity: Establishing robust broadband networks, IoT ecosystems, and seamless digital services for citizens.
- Environmental Monitoring: Utilizing sensors and data analytics for air quality, water management, and waste reduction.

“

Together, we can accelerate the deployment of intelligent urban solutions that address critical global challenges and improve the quality of life for millions”

*David Shoup*

"We are incredibly excited to partner with GB Group Global," said David Shoup, CEO of Airbrij LLC. "Their deep understanding of international markets and proven track record in large-scale project development perfectly complement our innovative smart city technologies. Together, we can accelerate the deployment of intelligent urban solutions that address critical global challenges and improve the quality of life for millions."

Dr. Gloria Herndon, Founder and CEO of GB Group Global, added, "This partnership with Airbrij LLC represents a significant step forward in our commitment to sustainable development and technological advancement. Smart cities are the future, and by combining our strengths, we are well-positioned to lead the charge in creating more efficient, livable, and connected urban environments worldwide."

The joint venture will leverage Airbrij's proprietary platforms and expertise in IoT, AI, and data analytics, alongside GB Group Global's extensive network of resources and operational experience across various industries. This synergy is expected to unlock significant opportunities in both established and emerging markets seeking to adopt smart city frameworks.

Both companies are committed to fostering sustainable growth, economic development, and enhanced civic engagement through their collaborative efforts. The partnership aims to become a preferred provider of end-to-end smart city solutions, offering a comprehensive suite of services from initial planning and design to implementation, operation, and maintenance.
