“Consumers today are flocking to cannabis beverages and other alternative ways of enjoying the plant, so we felt it was the perfect time to give our elixirs a thoughtful refresh,” said Max Vansluys, President of [Dialed In Gummies](#). “When we created Dialed In Rosin Drops, we kept the ingredients simple and plant-derived just like we do with our gummies so consumers can enjoy the same effects and feel good about what they’re putting into their

bodies.”

With a fast onset time, Dialed in Rosin Drops are ideal for dialing in a mood or a moment. These strain-specific elixirs are crafted in small batches using solventless, full-spectrum rosin and are 100 percent plant-derived. They contain no artificial flavors, no distillate and low sugar content. Effects are typically felt within 15 to 20 minutes, offering a quicker onset compared to many

traditional edibles thanks to Dialed In's thermodynamic individual molecular encapsulation and mixed molecule formula that delivers a faster, longer-lasting effect.

Dialed In Rosin Drops are vegan, gluten-free, and terpene-forward, with flavor derived entirely from the cannabis plant. Because they're free from added flavor or color, each batch reflects the unique terpene and cannabinoid profile of the strain used. Nothing is masked or artificially enhanced. To inspire creative use, Dialed In has partnered with five local mixologists to create recipe cards that show consumers how to incorporate the new Dialed In Rosin Drops into drinks and beyond.
