widespread adoption.

Segment Insights:-

- Medical segment: Expected to register the fastest CAGR of 6.2% during the forecast period, driven by growing usage in the pharmaceutical and healthcare sectors.
- Agrochemicals segment: Dominated the market in 2020, holding over 40% of the global share, supported by rising food demand and the need for high-yield agricultural products.

Regional Analysis:-

- Asia-Pacific, led by China, accounted for the largest market share in 2020, followed by North America. Growth in this region is attributed to high production volumes and increasing industrial applications.
- LAMEA is projected to witness the highest CAGR of 6.6% through 2030, owing to expanding manufacturing of laminates, MDI, pentaerythritol, and engineered wood products.
