

# Denver-based HVAC company recognized for excellence in service, community spirit, and business success.

DENVER, CO, UNITED STATES, July 22, 2025 /EINPresswire.com/ -- The Weather Changers Heating & Air Conditioning, a trusted name in HVAC services throughout the Greater Denver Metro Area, has been awarded two distinguished honors: the Small Business of the Year Award and the Charles Bryant Award. These recognitions highlight the company's outstanding achievements in customer service, business leadership, and dedication to community values.

Founded in 2009, The Weather Changers is a family-owned and locally-operated HVAC company known for its integrity, expert craftsmanship, and commitment to doing the job right the first time. The company was selected for the Small Business of the Year award by the Denver Metro Chamber of Commerce based on its continued growth, innovation, and contributions to the local economy. This award is presented to companies that exemplify a unique beginning and achieve success through determination, creativity, and hard work.

"It's truly an honor to be recognized with the Small Business of the Year Award," said Chris Houchin, owner of The Weather Changers. "We've always believed in doing what's right for our customers, our team, and our community. This award reflects the dedication of our entire staff and the trust our clients place in us."

In addition to this local business accolade, The Weather Changers also received national

recognition with the Charles Bryant Award. Named in honor of Charles Bryant, the founder of Bryant Heating & Cooling Systems, this award is reserved for Bryant Factory Authorized Dealers who demonstrate unmatched professionalism, product knowledge, and a strong sense of community responsibility.

The Weather Changers is one of only a select few dealers nationwide to earn this prestigious award. The company's long-standing relationship with Bryant, along with its NATE-certified technicians and 100% Satisfaction Guarantee, reinforces its reputation for quality and dependability.

"Our team takes pride in representing the Bryant brand with the same values Charles Bryant himself stood for - reliability, integrity, and service," said Chris Houchin. "Winning this award motivates us to continue leading by example and supporting our customers and neighbors with the same level of care they've come to expect."

These awards come at a time of continued growth for The Weather Changers, as the company expands its footprint across Denver, Aurora, Centennial, Parker, and surrounding areas. From installing energy-efficient systems to providing preventative maintenance and same-day repairs, the team remains focused on delivering affordable and honest HVAC solutions that prioritize the comfort and safety of local families.

The Weather Changers attributes its success not only to technical expertise but also to a customer-first approach. Every technician arrives in uniform, ready to solve problems with respect, transparency, and a smile. The company's commitment to service has earned them a 5-Star rating on Google and Yelp, an A+ rating with the Better Business Bureau, and a loyal base of customers who trust them year after year.

With these two awards now under its belt, The Weather Changers is poised to continue building on its legacy of excellence and making a lasting difference in the lives of those they serve.
