

From the Makers of HeyRV Comes ByeCar, A New Nationwide Cash-for-Junk-Car Service from SYB Automotive Group

Los Angeles, CA – SYB Automotive Group, the company behind the widely popular HeyRV cash-for-junk-RV platform, announces the official launch of its latest national brand: ByeCar. This coast-to-coast service pays cash for junk cars in all 50 states.

What began as a local operation in California has expanded into a trusted name across the U.S. With ByeCar, individuals can sell old, damaged, non-running, or unwanted vehicles without the hassle and get paid fast. Built with the same core values that made HeyRV successful, ByeCar brings a customer-first approach, transparent pricing, and nationwide coverage to the auto salvage space.

As many Americans already know, HeyRV helps RV owners turn inoperable or unwanted recreational vehicles into real cash, offering instant offers nationwide. Now, ByeCar provides the same simplicity and reach for everyday cars, trucks, and SUVs. Whether a vehicle is undrivable, severely damaged, or simply no longer in use, ByeCar provides a straightforward solution for owners looking to dispose of it responsibly and receive prompt payment.

“We created ByeCar to simplify the experience of selling a junk car,” said a spokesperson for SYB Automotive Group. “Too many people are stuck with vehicles they don’t want because the process of getting rid of them is a hassle. We fixed that. With ByeCar, there’s no haggling, no hidden fees, and no delays. We built our HeyRV reputation on fair offers, free towing, and good cash in your hand, and ByeCar follows in its footsteps.”

The ByeCar Difference: Trusted, Transparent, and Truly Nationwide

ByeCar is not just another junk car buyer. Backed by SYB Automotive Group’s proven experience in the auto recycling and vehicle salvage industry, ByeCar is built on the same core values that made HeyRV a household name among RV owners: transparency, speed, and service.

Key Features of ByeCar’s Nationwide Service

ByeCar is powered by the deep industry expertise of the SYB Automotive Group and built to serve junk car sellers in every state, from remote rural areas to densely populated urban centers. Instant, no-obligation quotes: Junk vehicle owners can obtain a free quote quickly by submitting basic details about their car, with no commitment required.

Nationwide junk car removal with no towing fees: ByeCar offers free vehicle removal across the United States, serving both urban centers and rural areas alike.

On-the-spot payment: Customers receive immediate payment at the time of pickup, with options including check or digital transfer.

Complete paperwork management: ByeCar oversees all necessary documentation, including title transfers, to streamline the transaction and ensure legal compliance.

"We wanted to create a system that provides real value without friction", the spokesperson added. "The process is fast and fair, and our customers appreciate that. Whether you're clearing space in your driveway or dealing with a vehicle that no longer runs, ByeCar is designed to get the job done quickly and correctly."

"No Car Too Old, No Town Too Remote"

ByeCar's guiding motto reflects its inclusivity: the company purchases all types of vehicles, including those with salvage titles, extensive damage, or mechanical failure. Even cars that have sat unused for years are eligible. The goal is straightforward: provide people with a stress-free way to turn their clunkers into cash.

"We've seen everything from early 2000s sedans to trucks that haven't moved in a decade," said another representative at SYB. "People are often surprised by the value of their junk car. We use real-time market data to make competitive offers, and we don't lowball. If it resembles a car even remotely, we'll make an offer."

Built to Scale with a Human Touch

As part of SYB Automotive Group's expanding portfolio, ByeCar is uniquely positioned to meet the growing demand for fast junk vehicle disposal while maintaining personalized, human-centered service. The team behind ByeCar believes that scaling a business shouldn't come at the cost of customer care.

About SYB Automotive Group

SYB Automotive Group is an industry leader in vehicle salvage, recycling, and cash-for-junk services. Known for developing efficient, customer-focused platforms like HeyRV and now ByeCar, SYB continues to modernize the way Americans sell their used vehicles. With a focus on innovation, transparency, and service, SYB is redefining auto disposal nationwide.
