

Clearday Concierge Care Services Addresses the Care Puzzle

Clearday Launches Concierge Care Services to Support Cognitive Health in Older Adults

SAN ANTONIO, TX, UNITED STATES, July 24, 2025 /EINPresswire.com/ -- [Clearday Clubs](#) (OTCPK: CLRD), a San Antonio-based healthcare services provider, is proud to announce the official launch of Clearday Concierge Care Services, a groundbreaking behavioral health initiative delivered through its subsidiary, Clearday Labs. This new service offers both in-person and telehealth behavioral care, specifically tailored to address cognitive challenges experienced by older adults.

Christin Hemmens

With the U.S. Behavioral Health Market valued at \$87 billion in 2024 and projected to reach \$132 billion by 2032 (CAGR of 5.3% per Fortune Business Insight), Clearday is strategically positioned to meet the growing demand for innovative, preventative, and accessible behavioral care solutions.

Led by Christin Lay Hemmens, one of Clearday's founders, this new initiative draws on her decades of experience in the full continuum of care model. Ms. Hemmens brings deep expertise across both acute and non-acute settings, and she will lead a specialized team that forms the backbone of this new offering.

The Clearday Concierge Care Services program provides several key benefits:

- Personalized behavioral care plans to support memory, mood, and engagement in older adults.
- Real-time virtual access to experienced professionals trained in non-pharmacological cognitive support.
- Ongoing assessments using Clearday's proprietary B.E.S.T. Test (Behavior Engagement Stimulation Temperament), enabling care teams to track and adjust interventions for optimal outcomes.
- Support tools for caregivers and care partners, improving continuity and quality of life for the individual and their support network.
- Flexible service models to integrate seamlessly into adult day care centers, senior living

communities, and in-home care environments.

This launch builds on the success of Clearday Labs, a leader in senior care innovation for the past four years. In that time, Clearday Labs has delivered:

- The Clearday at Home digital care platform.
- The BEST Test, a cognitive wellness tool.
- The first digitalized care map for seniors in non-acute settings.

The company will roll out Clearday Concierge Care Services through a business-to-business (B2B) model, offering licensing and marketing opportunities to partners such as adult day care operators and continuum of care retirement communities (CCRCs).

“The launch of Clearday Concierge Services represents the next step in our mission to deliver Better Care for Older Americans,” said Jim Walesa, CEO of Clearday. “By combining innovative digital tools with expert behavioral care, we’re helping providers deliver smarter, more effective support for seniors and their families.”
