

Plants Rhythm by Zhejiang Zhongguang Electrical Co., Ltd. Wins Silver in A' HVAC Awards

*Innovative Air Conditioner Design
Recognized for Seamless Integration of
Functionality and Aesthetics*

COMO, CO, ITALY, July 25, 2025
/EINPresswire.com/ -- The A' Design Award, one of the world's most respected design competitions, has announced [Zhejiang Zhongguang Electrical Co., Ltd.](#) as a Silver winner in the Heating, Ventilation, and Air Conditioning Products Design category for their innovative work titled "Plants Rhythm." This prestigious recognition highlights the significance of the design within the [HVAC](#) industry and positions it as a noteworthy achievement in the field.

The Plants Rhythm air conditioner design holds great relevance for the HVAC industry and its customers. By seamlessly integrating functionality with aesthetic appeal, this design aligns with current trends and needs within the market. The innovative features of the Plants Rhythm air conditioner offer practical benefits for users, such as improved air quality, water conservation, and customizable interior aesthetics, showcasing its potential to advance industry standards and practices.

The award-winning design stands out for its unique integration of an air conditioner with a planting module. The internal mechanism of the Plants Rhythm air conditioner automatically repurposes condensation water for plant irrigation, creating a symbiotic relationship between the appliance and the greenery. The modular planting pod features a minimalist design for effortless assembly, allowing users to seasonally refresh internal vegetation for customizable interior landscapes. During growth cycles, the foliage converts light energy into oxygen

emissions, enhancing air quality. An adaptive luminance sensor activates during low light conditions to support nighttime functionality.

This prestigious recognition from the A' Design Award serves as motivation for Zhejiang Zhongguang Electrical Co., Ltd. to continue striving for excellence and innovation in their future projects. The Plants Rhythm air conditioner design has the potential to inspire further exploration and advancement in the integration of HVAC systems with natural elements, fostering a more sustainable and aesthetically pleasing approach to interior climate control.

Plants Rhythm was designed by Yuxin He, Jinghong Zhang, Menglin Xie, Yuhui Xu, Haiping Hou, Xiaojun Yuan, and the team at Zhejiang Zhongguang Electrical Co., Ltd.

About Zhejiang Zhongguang Electrical Co., Ltd.

Founded in 2006, Zhejiang Zhongguang Electrical Co., Ltd. is a comprehensive solution provider for indoor comfort systems and industrial and agricultural cooling and heating systems, with heat pump technology at its core. The company is deeply engaged in four major sectors: new energy, intelligent manufacturing, home appliances, and new retail, providing high-quality products and services to global customers. Zhongguang Electric Group upholds the corporate mission of "creating a better life with technology" and strives to deliver green, healthy, comfortable, and intelligent living experiences to users worldwide.

About Silver A' Design Award

The Silver A' Design Award recognizes highly regarded designs that demonstrate excellence and innovation. Recipients are acknowledged for their notable contributions to raising industry standards and advancing the practice of design. The rigorous selection process involves blind peer review by an expert jury panel, ensuring that winning designs showcase a remarkable level of technical proficiency, artistic skill, originality, and creativity. The Silver A' Design Award celebrates designs that make a positive impact on everyday life and contribute to the advancement of their respective fields.

About A' Design Award

The A' Design Award is an international, juried design competition that has been recognizing and promoting superior products and projects since 2008. The award welcomes a diverse range of participants, including visionary designers, innovative agencies, forward-thinking companies, and influential brands from all industries and countries. By participating in the A' Design Award, entrants have the opportunity to showcase their creativity, gain global exposure, and be recognized for their exceptional design capabilities. The ultimate aim of the A' Design Award is to make the world a better place through the transformative power of good design, motivating designers and brands to develop pioneering products and projects that positively impact the global community.
