startups. These newly established companies or ventures aim to develop unique products or services and are often characterized by innovation and high growth potential. The rise in these startups can be attributed to lower entry barriers, availability of funding, a burgeoning entrepreneurial culture, and the development of supportive ecosystems. For instance, in February 2024, The Greater Birmingham Chambers of Commerce, a UK-based business support and networking organization, reported a notable surge in new company registrations, reaching 900,006 in 2023, up from 805,141 in 2022, a growth of 11.8%. This growth brings the total number of registered companies in the UK to an all-time high of 5,476,772.
