He is joined on the committee by another London Real favourite, Dr. Martin Kulldorff, co-author of the Great Barrington Declaration. Together, they are working from the inside to expose and dismantle what they describe as decades of entrenched corruption within the CDC and its

“one of the most important interviews we’ve ever done.” He continued, “Dr. Malone is stepping into a critical position of influence at a time when the stakes couldn’t be higher. We’re going to cover everything from Trump’s war on the global health-industrial complex to the lingering damage caused by COVID-era policies. The public deserves to hear this.”

In this wide-ranging, uncensored conversation, Dr. Malone will share his perspective on how U.S. vaccine policies are being rewritten behind closed doors, why he supports President Trump’s approach to challenging the dominant health narrative, and how Big Tech, Big Pharma, and federal agencies continue to suppress dissenting voices in science and medicine. He will also reflect on the personal and societal consequences of the COVID-19 era and what lies ahead in the ongoing battle for medical freedom and scientific truth.

This exclusive interview will be streamed live and in real time on the Digital Freedom Platform, a censorship-resistant space built by London Real to protect free speech and offer a platform to voices often silenced by mainstream media.

The live event airs today, Friday, July 25, at 5pm UK / Noon ET, and can be viewed only at <https://freedomplatform.tv>.
